1. Organisation Overview

Name

DriveHub Motors

Brief History

DriveHub Motors is a newly established Braamfontein dealership that curates premium and performance vehicles through trusted dealer partners, beginning with Pharoah Auto Investments in Sandton.

Mission

To provide honest advice, fair pricing, and dependable vehicles, backed by a service team that treats every customer like family.

Vision

To become Johannesburg's most trusted name in curated vehicle sales, known for transparency, quality, and service.

Target Audience

Students, young professionals, and families across Braamfontein and Johannesburg seeking premium SUVs, performance cars, or family vehicles.

2. Website Goals and Objectives

The website aims to showcase current inventory, build trust and brand credibility, and generate qualified enquiries and test-drive bookings.

Key Performance Indicators (KPIs)

- Monthly unique visitors
- Contact form submissions per month
- Average session duration
- Click-through rate: Home to Products and Services
- Enquiry-to-showroom-visit conversion rate

3. Current Website Analysis

Not applicable. DriveHub Motors is newly established with no existing website; this will be the organisation's first online presence.

4. Proposed Website Features and Functionality

The website will have six linked pages, sharing a consistent navigation bar, header, and footer:

- Home – hero image, value proposition, and featured vehicles
- About Us – company story, mission, and values
- Products and Services – vehicles by type (SUVs, Sports, Family) plus financing and test drives
- Gallery – vehicle interior and exterior photography
- News and Updates – stock arrivals and promotions
- Contact Us – address, hours, contact form, and embedded map

5. Design and User Experience

Colour Scheme

Deep Teal (#245264), taken from the DriveHub Motors logo, is the primary colour, paired with white and light grey backgrounds and a muted gold accent (#B8860B) for calls to action.

Typography

Montserrat (headings) paired with Open Sans (body text) – clean, modern, highly legible sans-serifs.

Layout and Design

A minimal, image-forward layout with horizontal navigation, a consistent header and footer, and generous white space.

User Experience Considerations

- Simple horizontal navigation on every page
- Prominent contact and test-drive calls to action

- Descriptive alt text for accessibility
- Mobile-first layout, to be implemented in Part 2

Wireframes

Low-fidelity wireframes for the Home page and a representative interior page are shown below.

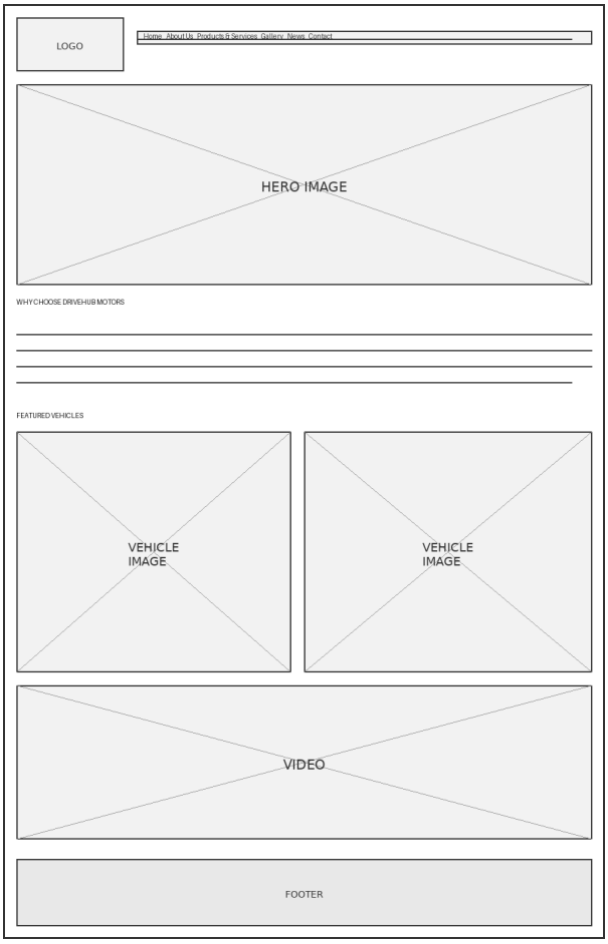

Figure 1: Low-fidelity wireframe – Home page

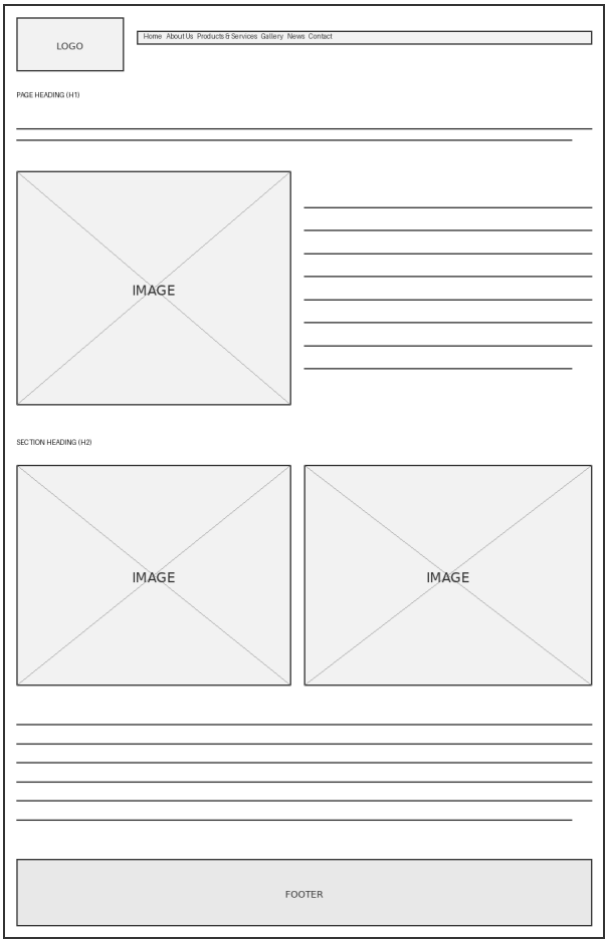

Figure 2: Low-fidelity wireframe – representative interior page

6. Technical Requirements

- Hosting: GitHub Pages – free static hosting integrated with the project's Git repository
- Domain: www.drivehubmotors.co.za, a South African .co.za domain
- Languages: HTML5 (Part 1), CSS3 (Part 2), and vanilla JavaScript (Part 3)

7. Timeline and Milestones

The timeline follows the three-part WEDE5020 POE structure; confirm exact dates against the official module calendar.

Milestone	Target Date
Part 1 – HTML structure and content	August 2026
Part 2 – CSS styling and responsive design	September 2026

Part 3 – JavaScript functionality	October 2026
Final testing, proofreading, and submission	October 2026

8. Budget

As a static, self-hosted project, running costs are minimal, based on current South African pricing.

Item	Estimated Cost
Domain registration (.co.za, annual)	R99 – R150
Hosting (GitHub Pages)	Free
SSL certificate	Free (included)
Vehicle photography	R0 (in-house)
Ongoing maintenance	Own time; no direct cost
Total estimated first-year cost	Approx. R99 – R150
